1.0	Introduction	1-1
1.1	Viva Energy Gas Terminal Project	1-2
1.1.1	Background	1-2
1.1.2	Project objectives	1-3
1.1.3	Project description	1-3
1.1.4	Project location	1-6
1.2	Project delivery	1-7
1.2.1	Proponent	1-7
1.2.2	Project timeline	1-8
1.3	Environment Effects Statement	1-10
1.3.1	Requirement for an EES	1-10
1.3.2	Purpose of this EES	1-12
1.3.3	Approach to the EES	1-13
1.4	EES structure	1-15
2.0	Project rationale	2-1
2.1	How the project contributes to Victoria's energy security and affordability	2-2
2.1.1	Geelong Energy Hub	2-2
2.2	Energy policy context	2-3
2.2.1	National energy policy	2-3
2.2.2	Victoria's energy policy	2-3
2.2.3	Climate policy	2-3
2.3	Natural gas use in Victoria	2-4
2.3.1	The Victorian natural gas market and transmission network	2-4
2.3.2	Current gas consumption	2-5
2.3.3	Future gas demand	2-7
2.3.4	Where do we get gas from?	2-9
2.3.5	South West Pipeline capacity	2-9
2.3.6	Gas supply constraints and opportunities	2-10
2.3.7	Proposed projects to address the gas shortfall and summary of project benefits	2-13
2.4	Additional project benefits	2-13

2.4.1	Synergies with current refinery operations	2-13
2.4.2	Supporting economic development for the region	2-14
3.0	Project alternatives and	
	development	3-1
3.1	Relevant EES scoping requirements	3-2
3.2	Overview	3-2
3.3	Selection of the offshore or onshore regasification alternative	3-3
3.3.1	Onshore regasification facility	3-3
3.3.2	Comparative analysis	3-4
3.3.3	Selection of the preferred regasification alternative	n 3-8
3.4	Site selection for the FSRU	3-8
3.4.1	Refinery Pier	3-10
3.4.2	Lascelles Wharf No. 4	3-13
3.4.3	Point Henry Pier	3-14
3.4.4	Comparative assessment	3-15
3.4.5	Selection of the preferred site for the FSRU	3-17
3.5	Dredging design development	3-19
3.6	FSRU design development	3-21
3.6.1	Seawater intake	3-21
3.6.2	Seawater discharge	3-21
3.6.3	Alternative regasification modes	3-25
3.7	Treatment facility design development	3-27
3.7.1	Site selection for the treatment facility	3-27
3.7.2	Nitrogen supply sources	3-29
3.7.3	Blending with refinery gases	3-30
3.8	Pipeline design development	3-31
3.8.1	Pipeline route selection and refinement	3-31
3.9	South West Pipeline tie-in location	3-34

TABLE OF	CONTENTS
----------	----------

4.0	Project description	4-1
4.1	Project overview	4-2
4.1.1	Project components	4-3
4.2	History of the Refinery Pier area	4-5
4.3	Refinery Pier extension	4-5
4.4	Floating storage and regasification unit (FSRU)	4-8
4.4.1	Receiving LNG	4-8
4.4.2	Storing LNG on the FSRU	4-8
4.4.3	Converting LNG back to gas on the FSRU	4-8
4.4.4	Summary of FSRU specifications	4-18
4.4.5	Injecting the gas into the pipeline	4-18
4.4.6	FSRU case study	4-18
4.5	Treatment facility	4-20
4.6	Pipeline	4-22
4.6.1	Tie-in facility	4-24
4.7	Utilities and site features	4-24
4.7.1	Lighting	4-24
4.7.2	Security	4-24
4.8	Construction	4-24
4.8.1	Indicative construction schedule	4-24
4.8.2	Localised dredging	4-27
4.8.3	Refinery Pier extension	4-31
4.8.4	Aboveground pipeline	4-36
4.8.5	Treatment facility	4-36
4.8.6	Underground pipeline	4-39
4.8.7	Lighting and security	4-47
4.8.8	Temporary facilities, traffic and laydown areas	4-48
4.8.9	Construction equipment	4-52
4.8.10	Construction workforce	4-53
4.8.11	Construction waste	4-54
4.9	Operation and maintenance	4-55
4.9.1	FSRU operation	4-55
4.9.2	Seawater use and reuse	4-56
4.9.3	FSRU maintenance and monitoring	4-57
4.9.4	Port navigation/shipping traffic	4-57
4.9.5	Treatment facility operation	4-57
4.9.6	Pipeline easement maintenance and monitoring	4-58
4.9.7	Operational traffic	4-58
4.9.8	Operational workforce	4-58
4.9.9	Operational waste	4-60
4.10	Decommissioning	4-60

5.0	Legislative framework and	
	approval requirements	5-1
5.1	Introduction	5-2
5.2	Environment Effects Act 1978	5-2
5.2.1	Environment Effects Statement proce	ss 5-3
5.3	Key approvals	5-4
5.3.1	Environment Protection and Biodivers Conservation Act 1999 (Cth)	sity 5-5
5.3.2	Marine and Coastal Act 2018	5-5
5.3.3	Environment Protection Act 2017	5-5
5.3.4	Planning and Environment Act 1987	5-6
5.3.5	Pipelines Act 2005	5-6
5.3.6	Aboriginal Heritage Act 2006	5-6
5.3.7	Gas Safety Act 1997	5-7
5.3.8	Occupational Health and Safety Act 2004	5-7
5.4	Other approvals	5-7
5.5	Summary of key approvals and administering agencies	5-7
60	Stakeholder and community	• •
0.0	engagement	6-1
61	Consultation requirements	6-2
6.2	Pipelines Act 2005	6-2
6.3	Approach	6-3
631	Engagement principles	6-4
6.3.2	Engagement phases	6-4
6.4	Engagement tools	6-6
