

Newport Terminal Newsletter

Welcome to our annual community newsletter which provides an overview of what has been happening at Newport Terminal and Viva Energy over the year.

We are always keen to receive your feedback so please refer to our Contact Us section.

You can also find out more on our website vivaenergy.com.au

COVID 19 update

Like all companies in Australia we are continuing to navigate the impacts of COVID-19. With many Australian State and Territories easing mobility restrictions we are seeing fuel volumes return to more normal levels. Through our Geelong Refinery and Newport Terminal, Viva Energy is proud to help supply the fuels that Victoria needs including fuel at service stations for motorists and trucking customers, to airports, and to our commercial customers.

Wayfinder Digital Program Volunteering with the Smith Family.

A number of Viva Energy employees have been participating in the Wayfinder Supply chain Careers for Women, Ambassador Program. Ambassadors come from a range of supply chain roles and are passionate about their industry, organisations and occupations. They provide a practical understanding of what it is like to work as a woman in supply chain, the vast array of career opportunities, and the future skills that will be required to work in this complex and fast-growing sector.

Our Wayfinder Ambassadors engage with organisations, schools or community groups, whether it's in a formal setting, career expo or facilitated discussion. This year, as a result of COVID-19 restrictions, the Smith Family Work Inspiration Program workshops with high school students were held virtually, and gave participants the opportunity to be engaged through real-time surveys and break-out rooms.

Newport Office Refurbishment

Earlier in the year, our Newport office underwent a long awaited major refurbishment. With an existing area size of over 1000sqm the new offices can accommodate up to 75 staff.

The office features a new entrance and reception area and other spaces have plenty of natural light. Based across two levels, our Newport-based Operations, Maintenance and Engineering staff have an inviting, spacious and

modern working environment. We will also welcome the Liberty Oil Wholesale team from their Tooronga Road offices as co-tenants once COVID-19 restrictions allow.

COMMUNITY WRAP-UP

Upcoming Community Meeting

You are invited to join us at the upcoming Community Liaison Group Meeting

Date: Thursday 3 December 2020

Time: 5.30pm – 6.30pm

Venue: Due to the uncertainty in Victoria around COVID-19 restrictions on indoor gatherings, we will be holding this meeting virtually. Please indicate your interest in either attending virtually or your interest but inability to attend virtually via:

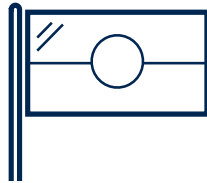

Email: communityrelations@vivaenergy.com.au

phone: 03 8823 4677

Celebrating Indigenous Literacy Day

Wednesday
2 September, 2020.

In September, Viva Energy was again proud to sponsor Indigenous Literacy Day which is run by the Indigenous

Literacy Foundation (ILF). This year's virtual event was a fast-paced, highly visual celebration which was designed to engage the nation in the value of Aboriginal and Torres Strait Islander peoples' first languages.

It is available to view on YouTube by visiting the ILF YouTube channel.

The ILF is a charity that focuses on three important programs for remote children and their families:

- Book Buzz - supports early literacy;
- Book Supply - provides culturally relevant books and books translated in language; and,
- Community Literacy Projects – which engages communities to write and illustrate their own books in their first language.

Gellibrand Cricket Club

We are proud to continue our relationship with the Gellibrand Cricket Club as a sponsor of the junior 2020/21 Female Cricket season. As one of our long-standing and closest neighbours, supporting the club has been an important part of our community program for many years.

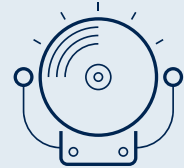

The female teams, are the most recent inclusion to Gellibrand Cricket Club having commenced in 2018. The junior girls' program is going from strength to strength and will have at least three sides this summer and a number of girls in the Cricket Blast program; making it the largest girls program in the area. The senior women had a successful first season in 2019/2020 and players are, more than ever, looking forward to kicking off the new season.

This year, Viva Energy is also contributing to the cost of new pitch covers, that are now required due to the increased size of the wicket block after recent upgrades and re-development works at Digman Reserve. This contribution significantly reduces the costs that the club would otherwise need to pass on to members.

Newport Terminal Alarms

The alarms at Newport Terminal are a vital way to ensure that our people on-site respond quickly and safely to an incident.

The alarms are tested at 1.30pm every Thursday.

General Alarm

30 seconds of an alarm with an alternating pitch. In the event of an actual incident, the general alarm will sound for at least one minute or more.

All Clear

30 seconds of continuous sounding of the siren. This signifies that an incident that has occurred is now under control.

An alarm heard any other time from the testing on Thursday means an incident has occurred on site that requires attention by terminal personnel.

The community does not need to take action when an alarm sounds unless instructed otherwise by the Police or Emergency Services.

We offer local residents free fridge magnets with information about our alarms. If you would like one, please email us at communityrelations@vivaenergy.com.au and don't forget to include your name and postal address.
