

# Gore Bay Newsletter

## Issue 8

Welcome to our latest community newsletter. The intent of our newsletters is to provide an overview of what has been happening over the last six months at Gore Bay Terminal.

We are always keen to receive your feedback so please refer to our How to Contact Us section if you'd like to speak with us.

You can also find out more on our website at [www.vivaenergy.com.au/operations/gore-bay](http://www.vivaenergy.com.au/operations/gore-bay)

### Electrical Reliability Improvements

Viva Energy has completed works to replace the electrical substations at Gore Bay.

One of the three new substations and transformers.

The works will improve the operational reliability of the site into the future and is a key investment of around \$10 million into the Terminal.

### Ongoing Maintenance Program

Cladding gradually being removed from a fuel oil tank.

We have completed a review on the condition of cladding on some of the Fuel Oil tanks.

These tanks (which store fuel oil) are insulated to keep the fuel oil warm. The local bird population pecks at the insulation which can result in an untidy appearance, however, does not impact on the integrity of the tanks.

Insulation on one of the tanks has been removed.

Gore Bay Terminal, Gore Cove.

### Historic Naval Refuelling

Viva Energy conducted a historic refuelling of the Royal Australian Navy vessel, HMAS *Sirius* from Gore Bay Terminal in March. This refueling marked over 20 years since the last naval vessel, HMAS *Westralia*, came to the facility.

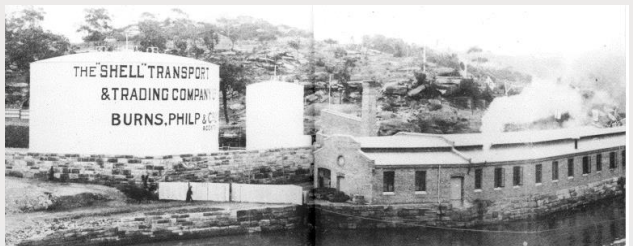

This was a significant milestone with a vitally important customer. Viva Energy is a proud supplier of the Australian Defence Force.

Refuelling of HMAS Sirius at Gore Bay Terminal.

### Did You Know?

In 1901, Burns Philip (as agents of Shell) hosted an opening ceremony for the first bulk installation for kerosene at Gore Bay.

## Viva Energy completes purchase of Shell Aviation Australia

Viva Energy completed its purchase of Shell Aviation Australia in July, for a total transaction of approximately US \$250 million.

Viva Energy was already the exclusive supplier of jet fuel to Shell Aviation Australia for nearly three years and supplies around half of Sydney Airport's jet fuel requirements.

You can read more about this announcement on our website at [www.vivaenergy.com.au/about-us/media/centre/news/2017](http://www.vivaenergy.com.au/about-us/media/centre/news/2017)

## Community Meetings

The next Community Information Evening for our fence-line neighbours is planned to occur in **November**.

Viva Energy also attended a meeting facilitated by SafeWork NSW with the Greenwich Community Association (GCA) and other regulators in June. The intention of these meetings is to address matters raised by GCA with relevant regulatory representatives and subject matter experts in attendance.

## WHAT'S THAT SOUND?

**The Gore Bay Terminal alarm is tested every Tuesday at 8.30am.**

This alarm is part of the Terminal's safety system and it is intended for on-site personnel only.

There is no need for the community to take action if the alarm is sounded. In the unlikely event that an incident occurs and actions need to be taken, Emergency Services will direct the community.

If you have a concern regarding our day to day operations please call **8437 1238** immediately so that concerns can be investigated and appropriate action taken (if required).

## Viva Energy employees complete over 1,100 Good Deeds

Employees at Viva Energy, the first Australian corporate to commit to Good Deeds Day, have magnified the initiative of Good Deeds Day to create Good Deeds Week.

Between Monday 27 March and Sunday 2 April more than 750 Viva Energy employees across Australia donated over 650 hours to participate in 1,100 good deeds.

Some of these Good Deeds included donating a total of 45 pints of blood to the Australian Blood Bank and Australian Red Cross, packing 400 envelopes for Give Where You Live, making 250 birthday cards for foster kids supporting the Pyjama Foundation, collecting over 200 non-perishable food, baby items, sanitary products for the homeless and various other community partners.

## Supporting local role models

Viva Energy's community program *Jigsaw* is offering grants of up to \$5,000 to role models from registered education facilities or non-profits organisations.

Applications for grants must be for projects which address either mental illness, substance misuse or breaking the poverty cycle through education.

If someone in your organisation needs support to continue their good work, they can apply at [www.vivaenergy.com.au/community](http://www.vivaenergy.com.au/community) by **20 November**.
