

Viva Energy

Professional WB Degreaser

Description

Professional WB (Water Based) Degreaser is a powerful all-purpose cleaner and degreaser that provides a safer alternative to other cleaners, bleaches and solvents, designed to penetrate and dissolve built-up oil, grease, and grime.

Suitable for a broad range of surfaces and applications around the home, workshop and outdoors.

Performance Features

- **Water based**
- **Non-Corrosive**
- **Non-Flammable**
- **Readily biodegradable**
- **Non-Toxic**

Applications

- **Oil and grease remover**
- **Driveways, garage floors, walls, pavers, concrete**
- **Motorcycle and car engines**
- **Caravans & RVs**
- **Lawnmowers**
- **Tools, machinery, and trailers**
- **Plastic, rubber**
- **Tiles, glass**
- **Indoor/Outdoor Applications**

Remove excess grease and oil.

Brush or spray on liberally and let soak for a few minutes. For stubborn patches or stains, brush vigorously.

Hose off with water.

General Cleaning

Dilute 1 part degreaser to 10 parts water.

Viva Energy

Professional WB Degreaser

Health, Safety and Environment

Professional WB Degreaser is unlikely to present any significant health or safety hazard when properly used in the recommended application and good standards of personal hygiene are maintained.

Avoid contact with skin. Use impervious gloves with used oil. After skin contact, wash immediately with soap and water.

Guidance on health and safety is available on the appropriate Material Safety Data Sheet which can be obtained from the Viva Energy Technical Help Desk.

Take used oil to an authorised collection point. Do not discharge into drains, soil or water.

Specifications / Approvals / Recommendations

For further information regarding equipment approvals and recommendations contact the Viva Energy Technical Help Desk.

Typical Physical Characteristics

Properties	Methods	Degreasing Fluid
Appearance	Visual	Clear liquid
Flash Point		Non-flammable
Specific Gravity (25 deg C)		1.03 -1 .04
Storage Temperature		Room temperature
pH (Neat)		11 – 11.5
Solubility		100% in water

These characteristics are typical of current production. Whilst future production will conform to Viva Energy's specification, variations in these characteristics may occur.
